

## Update instructions for SDM3055 P12R1 Version

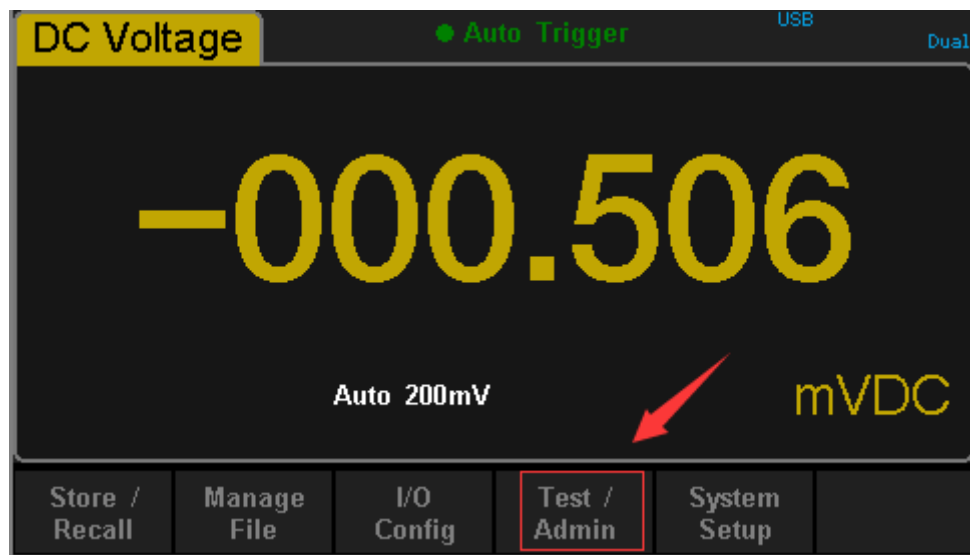

**Tools:** U-disk

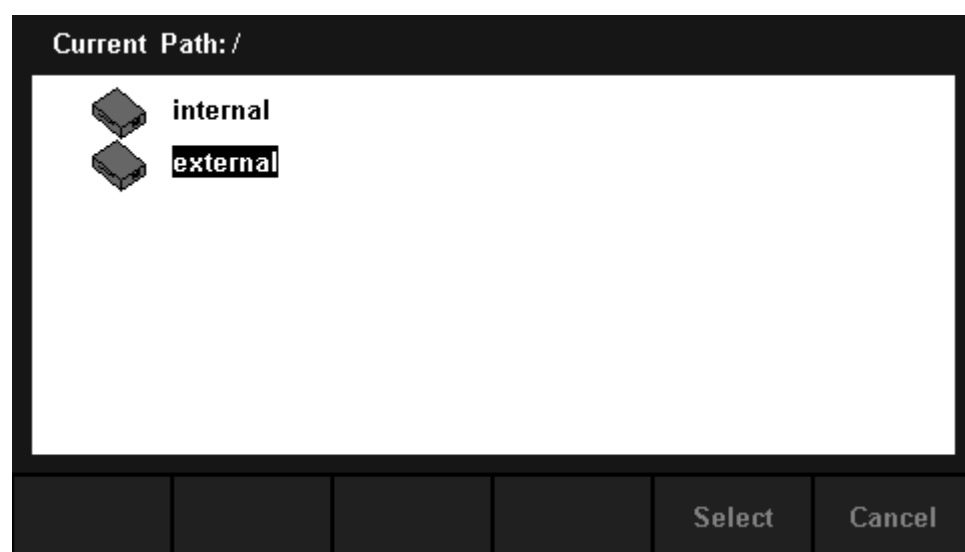

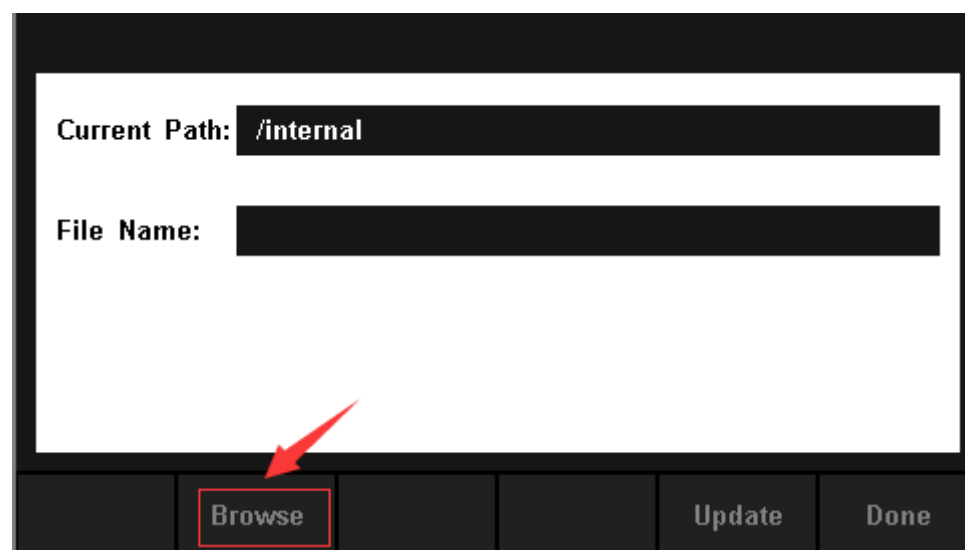

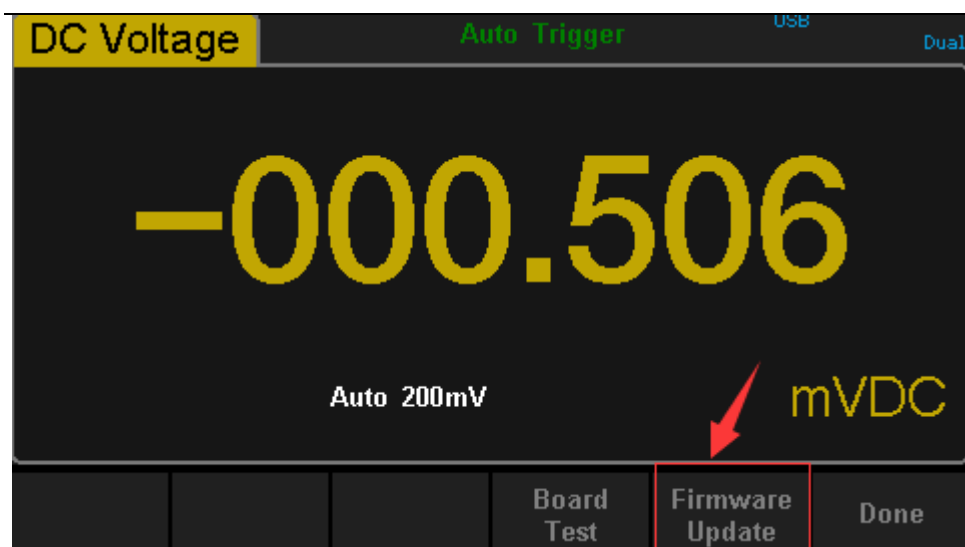

Warning: "If your SDG3055 is currently not running 1.01.01.11R1 you must first download and run this installation before updating to 1.01.01.12R1".

**Steps:**

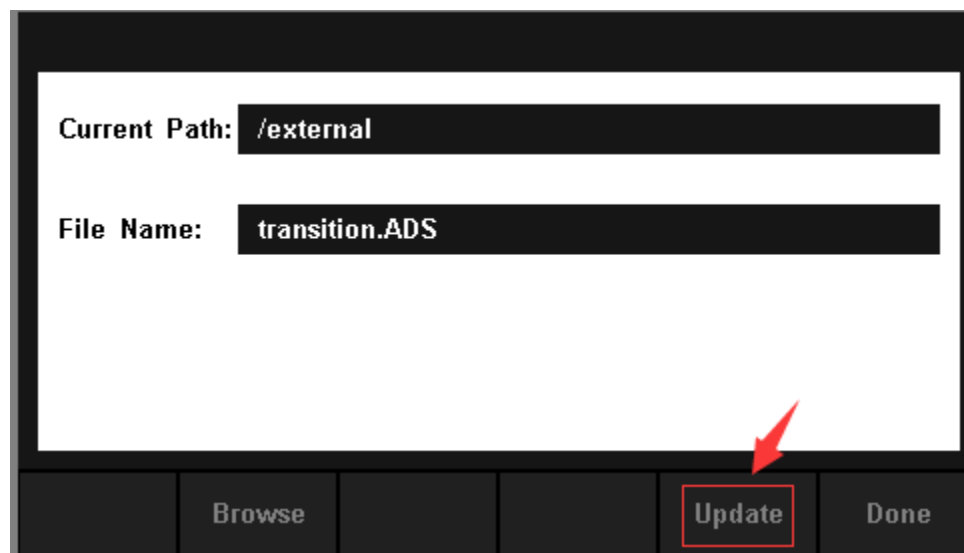

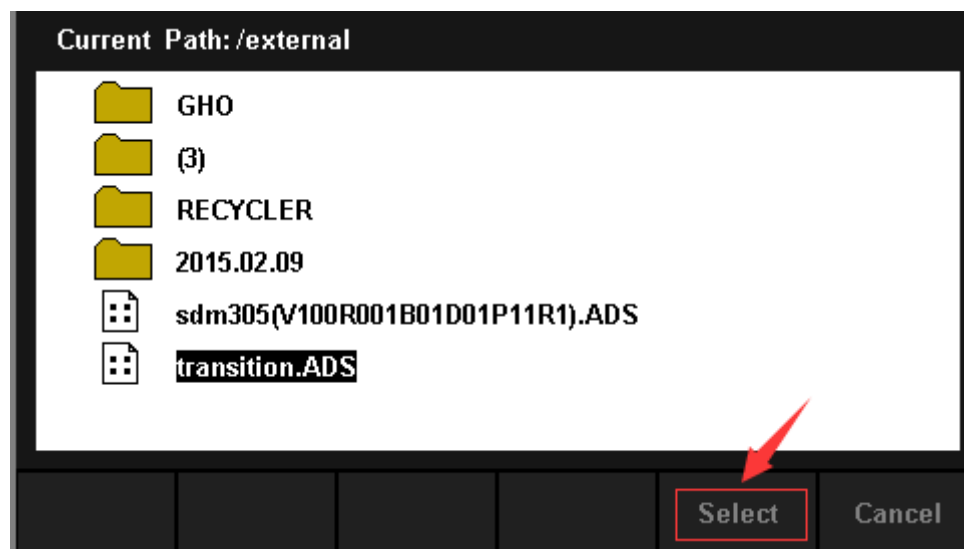

Step1.

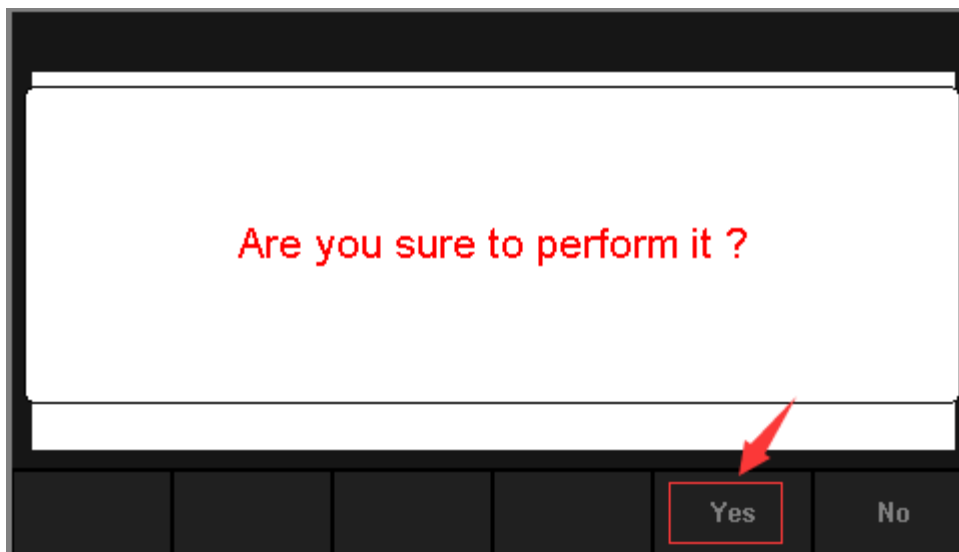

First you must update the transition file *transition.ADS*

Press the left arrow key to choose the file.

*reboot*

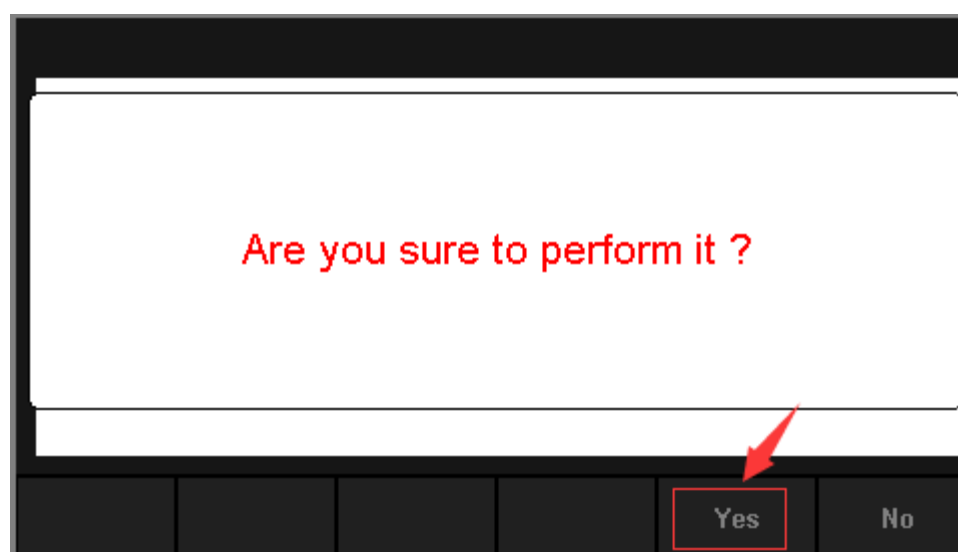

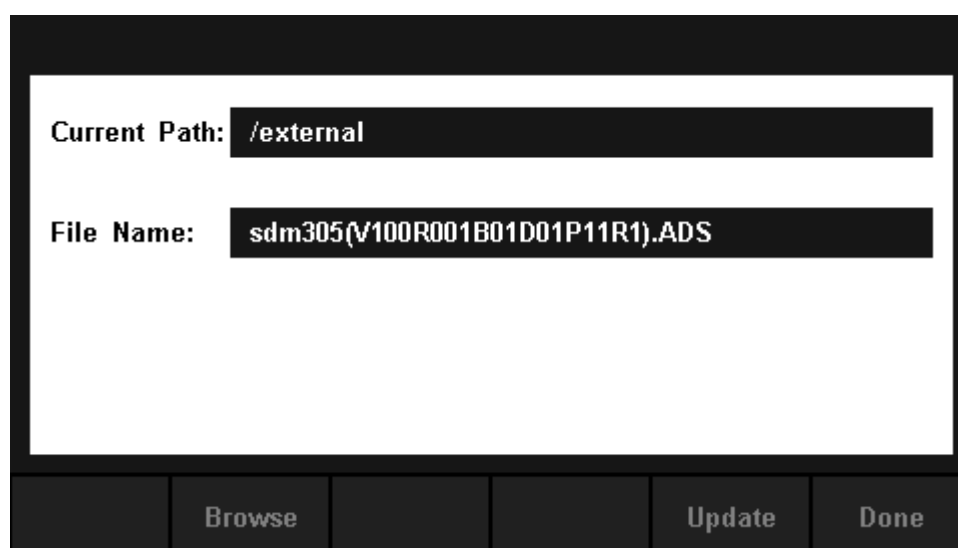

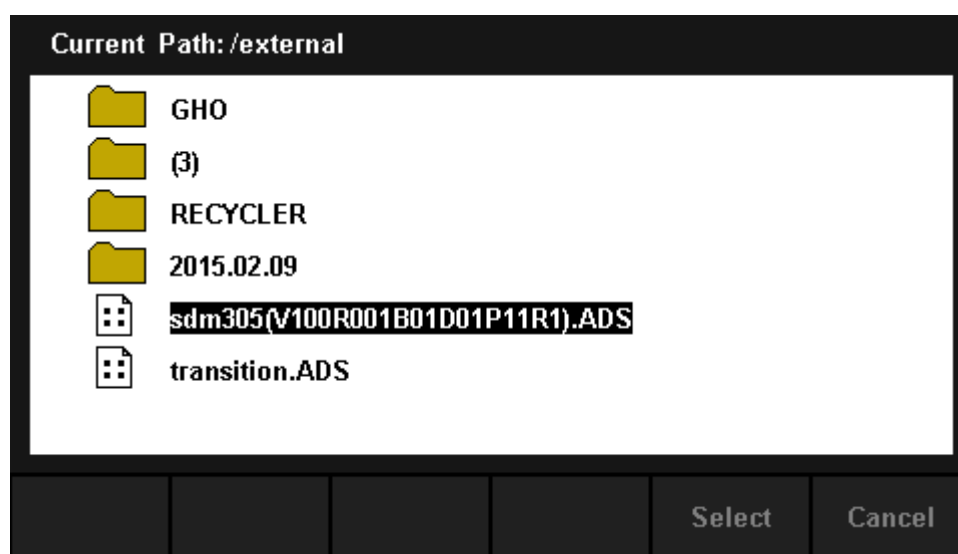

Step2.

After the transition updated, you can update the normal version

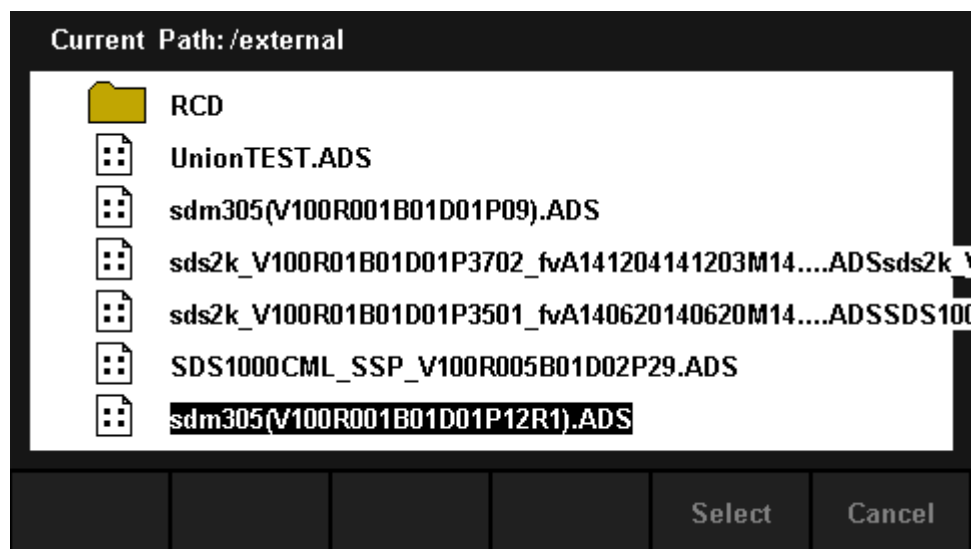

*sdm305 (V100R001B01D01P11R1). ADS*

Press the left arrow key to choose the file.

*Reboot twice*

Current Path:	/external
File Name:	sdm305(V100R001B01D01P12R1).ADS

	Browse			Update	Done
